Re: Full-year 2025 monthly sales results (fictional data)

Overview

Across 12 months and three regions, the company recorded **$5,989,800 in total revenue** on **71,910 units sold**. All regions followed a similar seasonal pattern: steady growth through spring and summer, a September dip, and a strong November–December holiday peak.

Revenue by Region

Region	Units	Revenue	Share
North	25,710	$2,125,200	35.5%
West	24,140	$1,996,800	33.3%
South	22,060	$1,867,800	31.2%
Total	**71,910**	**$5,989,800**	100%

Key Findings

- **North led all regions** for the full year, outperforming South by $257,400.
- **Best single month:** December 2025, North region — **$218,400** (1,820 units).
- **December was the strongest month company-wide** ($623,400), roughly 10% of annual revenue.
- **September was the softest month** ($499,200), consistent with a post-summer slowdown.
- Regional gaps stayed narrow (top vs. bottom region differed by ~14%), indicating balanced market coverage.

Recommendation

Maintain the North region’s holiday-season playbook as a template, and investigate the September dip for targeted promotions in 2026.
